We are seeking a Fundraising Manager with experience of building relationships with trusts and foundations to join our small and ambitious fundraising team. You will play a key role in engaging supporters to empower disadvantaged young people on their education and career journeys.

About Future Frontiers

At Future Frontiers, we support young people from disadvantaged backgrounds to realise their potential at school and achieve post-16 qualifications that build towards secure, fulfilling employment.

In partnership with schools, businesses and supporters, we deliver an evidence-based programme of career coaching and 1:1 guidance for young people when they are in Year 10 and 11. This year, we are working with 3,000 young people across Greater London.

Our five-year strategy for 2021-26 is focused on ensuring that our programme achieves meaningful long-term impact at the post-16 transition, transforming the life-chances of disadvantaged young people. You can find out more about our pupil journey and impact so far in the [Annual Impact Reports on our website](#).

We are particularly interested to hear from candidates who have lived experiences relatable to our young people.

The role

We are seeking a Fundraising Manager with a passion for our mission who will build relationships with donors to the charity - especially charitable trusts and foundations - and help to secure a significant proportion of the charity's income. This is key to delivering the Future Frontiers programme and making a lasting difference for disadvantaged young people on their education and career journeys.

The successful candidate will report to the Senior Fundraising Manager and focus on building meaningful, long-term relationships to secure 4-5+ figure gifts over the coming years.

You will be confident in proactively engaging with existing and prospective funders, including attending meetings and phone calls. You will write high-quality applications and deliver excellent supporter engagement, including tailored reports and case studies.

There is the potential for line management responsibility in this role.

Whilst your primary focus will be on major giving, the Fundraising team also works with our Partnerships team to engage volunteer fundraisers through our corporate partnerships and 'Stay Connected' community.

Your responsibilities

Build lasting relationships with supporters

You will develop an in-depth understanding of existing and potential supporters to provide tailored relationship management, including engagement opportunities, to build towards significant gifts over multiple years.

Develop and manage a portfolio of supporters

You will work closely with our Fundraising Coordinator to identify charitable trusts and foundations that have the potential to support Future Frontiers for the first time. You will effectively qualify and engage with prospects to build a pipeline for the coming years, matching prospects with appropriate asks.

Write applications for funding

You will write compelling applications for funding that are tailored to each recipient and make a convincing case for how their support will make a difference for disadvantaged young people.

Report on impact

You will deliver high quality reports that are tailored to each recipient and demonstrate how their funding has made a difference for disadvantaged young people. You will plan and deliver case studies to convey the difference made by supporters.

Record-keeping

You will ensure that key information about our fundraising activity is stored appropriately and with high attention to detail.
